

BURLESQUE

It's a cold and crazy world that's raging outside
But baby, me and all my girls are bringing on the fire
Show a little leg, got to shimmy your chest
It's a life, it's a style, it's a need, it's burlesque

E-X-P-R-E-S-S

Love, sex, ladies, no regrets

E-X-P-R-E-S-S

Love, sex, ladies, no regrets

Been holding back for quite some time
And finally the moment's right
I love to make the people stare
They know I got that certain savoir-faire

Fasten up, can you imagine what would happen
If I let you close enough to touch?
Step into the fantasy, you'll never wanna leave
Baby, that's guaranteed, why?

It's a passion and emotion
It's a fashion, burlesque
It'll move you, going through you
So do what I do, burlesque

All ladies coming to flaunt it
Boys, throw it up if you want it
Can you feel me, can you feel it?
It's burlesque
